The UNITED BROTHERHOOD of CARPENTERS and JOINERS of AMERICA

Local No. 314

Instituted August 12, 1881 Madison Local Organized July 12, 1899

Office: Labor Temple 309 West Johnson Street Telephone Gifford 314

Madison 3, Wisconsin Aug 28

Dear Sir and Brother:

We would like to inform you that the ~~$24~~ 38 500,000,000 addition to the Badger Ordnance Works Project at Merrimac, Wisconsin, is now under way. The Mason and Hanger Co. of New York City are the Architects, Engineers, and Managers, but most of the work is being done by private contractors.

The men on the job until further notice are working six ~~nine~~ 10-hour days and time-and-one-half for over time and Saturdays. The rate of pay is $1.25 per hour. Outside Local Union members are working on a Permit. Initiation fee for new members is $50.00. Rooms are plentiful and can be found through our office, but do not bring your family.

Two years ago, you worked on this project, and if you are now unemployed or in non-essential work, we would be very glad to have you back again, since we are in need of carpenters. Please report at our office, City Hall, Sauk City, Wisconsin, immediately to obtain your permit and be ready to go to work. Please follow these instructions:

(1) Bring your birth certificate or your citizenship papers. If you haven't a birth certificate bring along your baptismal certificate, which must state the date and the place where you were born. A baptismal certificate not showing the place and date of your birth will not do. If you have no birth certificate or baptismal certificate, a sworn affidavit will be accepted. No medical examination is required.

(2) You must have your Social Security card from the Government or you will not be accepted.

(3) You must have a release or a statement of availability from your last employer.

Fraternally yours,

Ben Stitgen
