WE GALS YOU LEFT BEHIND

Listen all you boys in service who are facing hardships rough
There's no doubt your job is toughest, we'll grant you sure"E'nuf
But although you have your troubles, won't you try to bear in mind
Life is not a bed of roses for " WE GALS YOU LEFT BEHIND."

We're working like the devil for the good old U.S.A.
And having bonds and taxes all deducted from our pay
Everything we have is rationed from our clothing to our chow
But the scarcity of male sex puts a crimp in our morale.

Gosh, the town is like a graveyard, since you boys have gone to fight
So how's a gal to keep in practice sitting by herself each night
Now we have some poor examples who have dodged the draft with lies
And we have the kind called slackers that we females all despise
And the only thing that's left for us are those past forty-five
And pray tell me who the heck wants birds that are half-alive.

Why if we would even consider to accep tham for a date
They would call around seven and start rushing home at eight
And if we mention dancing just Imagine how they'd rave
For one night of jitterbugging would sure send them to their grave
We agree with General Sherman when he said that War is H--
For the kissing we are missing proves that statement pretty well
So you fellows if you're grieving of the joys you've been denied
Try to think of us poor damsels who are darned near suicide
And when we've won our freedom and your through with wartime grind
Hurry back with your affections to "WE GALS YOU LEFT BEHIND."
