ARMY ANTICS

COPYRIGHT MCMXLII BY CURT TEICH & CO., INC., CHICAGO, U. S. A.

Hello Lorraine and gang;

Just a few lines to let you know I received your letter; thanks a lot and write even if I don't. I have finished my 11th week of real training and we start tactics now. Last week I had Machine Guns and now we are on the 60 mil. Mortar. It is a simple weapon but the adjustments and sighting methods are rather intricate. I slept out last nite and one nite last week. Next week we spend 3 nites out and we have the infiltration course again, at night. In two more weeks after that we go out on a 14 day bivouac which will end on Dec. 24. We fire Machine Guns and mortars on Thanksgiving Day and we must eat on the field. What a life but I am beginning to like some of it, chow, mail-call, weekend passes etc. So long for now — as ever

Your friend
Alan
